

Randall A. Notzen is an Intellectual Property attorney with experience in the areas of computer hardware and software design. Early in his career, he served as a patent attorney for a major manufacturer of medical diagnostic imaging equipment and as an electrical engineer working on the design of embedded operating systems using appropriate high and low-level software languages; design, fabrication and packaging of semiconductor devices; design and repair of semiconductor fabrication equipment; and additional forms of electrical and mechanical design.

In the mid-1990s, Mr. Notzen hosted the *Inventors Insider* educational series, a compilation of practical information, available on videotape, to help inventors understand the importance and process of obtaining patent protection. As host of the series, he provided useful insight and direction, for individuals, entrepreneurs and businesses to help them take the right steps to safeguard their discoveries and innovations.

Mr. Notzen serves as a shareholder and vice president of The Webb Law Firm, which has concentrated exclusively in intellectual property law since 1845. He works with a wide range of clients, including those seeking patent protection for electrical, mechanical and software inventions, as well as trademarks and copyrights and related litigation.

Mr. Notzen is a Registered Patent Attorney with the U.S. Patent and Trademark Office and has been admitted to practice law in state and Federal courts in Pennsylvania and Ohio.
